BEAUMONT, Texas - Entergy Texas' SCORE Program will award Region 5 Education Service Center \$7,406 today for upgrading its lighting systems in its Beaumont and Silsbee buildings to be more energy-efficient.

The SCORE Program provides financial and technical support to help educational facilities become energy-efficient, according to a news release from the Region 5 Education Service Center.

The award was determined by the amount of energy the buildings' new equipment will save. According to the Environmental Protection Agency, the new lighting systems in the Beaumont and Silsbee buildings will save more than 166,100 kilowatt-hours of electricity per year, the release states.

Region 5 ESC will continue to look for more opportunities to become energy-efficient, the release states.

Entergy will give Region 5 ESC its check at 2 p.m. today at the education center's Beaumont office, 2295 Delaware St.
