

Commercial Energy Audit Pilot Program

No-cost ASHRAE Level II Audits for your customers
Offered by Consumers Energy | Conducted by Reserve Advisors

TURN AUDITS INTO OPPORTUNITIES

- Close active deals with third-party savings validation.
- Open doors with a no-cost audit offer.
- Receive sales-ready scopes and incentive support.

HOW IT WORKS

1. You identify and nominate a target property.
2. Reserve Advisors completes a Preliminary Energy Analysis and provides system-level savings potential. This can be used to validate energy savings potential and proposed project value to the customer.
3. If savings are measurable, Consumers Energy authorizes a no-cost Level II audit
4. Once approved by the building owner, Reserve Advisors will complete a third-party audit and report.

WHAT YOU GET

- System-by-system savings insights and prioritized energy savings measures.
- Clear next steps to support your open proposal.
- Energy provider incentive guidance.

Limited audit funding is available; eligibility and customer acceptance are required. Building simulation will determine the propensity for the subject property to take action. Should an audit be awarded, participation does not guarantee the subject property will commit to suggested projects.
