

Save on energy costs with natural gas upgrades.

Upgrade for less with rebates that stack.

Improving natural gas efficiency can help your business reduce operating costs. Plus, we're ready to make upgrading more affordable with rebates.

Save with rebates on:

- Recuperative or Regenerative Thermal Oxidizers (RTO) – up to **\$100/CFM**
- New or replacement boilers – up to **\$2.00/MBH**
- Boiler tune-ups – up to **\$2,000/boiler**
- Make-up air units – up to **\$5.00/MBH**
- Steam trap repairs and/or replacement – up to **\$175/trap**
- Steam trap monitoring – up to **\$80/trap**
- Insulation for heating distribution components like:
 - Duct systems – up to **\$3.00/sq. ft.**
 - Hot water pipes – up to **\$2.00/linear ft.**
 - Steam pipes – up to **\$6.00/linear ft.**

Stack rebates when you Buy Michigan.

We'll add a **20% bonus to your rebate** if you support Michigan businesses with your purchase. Equipment that is at least 50% manufactured or assembled in Michigan is eligible.
