

Energy Efficiency

SMALL BUSINESS

Small businesses, big impact

With any small business program, scalability and personalized service is the name of the game. With our experts on your side, improving how each business uses energy is easier than ever. We're ready to help set data-driven savings goals that deliver results for your customers—and our environment.

We make an impact.

Smaller businesses have unique challenges when it comes to managing their energy consumption. By acknowledging common budget or time constraints and pooling local resources to complete the work at scale, our teams make implementing common and custom energy efficiency upgrades simple.

1 Assess

From mom-and-pop laundromats to grocery stores and beyond, we'll quickly identify areas of operational improvement and create business-focused strategies to reduce annual energy use through equipment upgrades and more.

2 Install

We bring energy efficiency to small businesses the easy way—with direct installation of common products like LED bulbs, water-saving devices and more. For larger upgrades, we manage a diverse network of qualified local trade allies to get the job done.

3 Connect

To best achieve their energy goals, we enable small businesses to seamlessly connect with all opportunities to participate in your programs by meeting them where they are and providing a variety of convenient engagement touchpoints.

How we get the job done

Assessment

Connect customers with energy efficiency experts online or in person.

Fulfillment

Deliver new efficient devices as well as savings directly to your customers.

Installation

Connect customers with a network of trade allies for prompt installation.

Consulting

Offer upgrades and roadmaps for ongoing improvement with our energy experts.

CLEAResult ATLAS™

Connect

Helps meet the precise needs of your customers, while keeping them on track to maximize their energy savings potential.

Insights

Leverages our expansive data framework to produce an exceptional level of customer insights and predictive operational analytics.

Marketplace

Connects customers to the common upgrades, special offers and product rebates they need to save money and energy online with ease.

Academy

Provides training resources for distributors and other participants on installation, delivery and new technologies in energy efficiency.

We change the way people use energy, *for small businesses.*
